

Sinclair Broadcasting apparently is forcing their stations to play a campaign ad (in this case, a negative one) whether the local management wishes to or not. This is clear violation of the new campaign reform legislation...no attempt to provide another POV further proves the intent of this monopolistic company to revoke its obligation to utilize free air waves for its own purposes.

Sinclair uses the public airwaves free of charge, and is obligated by law to serve the public interest. But when large companies control the airwaves, we get more of what's good for the bottom line and less of what we need for our democracy. Instead of something produced at "News Central" far away, it's more important that we see real people from our own communities and more substantive news about issues that matter.

Stop Sinclair now; fine them the same amount Stern got fined (for a much less egregious crime, using "bad words") and give the company a Cease&desist letter. Everyone has to play by the same rules, republicrats and independents. Please do your job,

Sincerely,
